

Gr. 2 Species at Risk

1. An animal's *habitat* includes the four things that it needs to survive. What four things do all animals need?

2. Happy frog, sad frog! Draw a 😊 or a ☹️ next to each picture to show which of these things are good for a frog and which are not.

3. Which animal does not belong? (*Hint: think about their backbone*)

Yucca Moth

Burrowing Owl

Bull Trout

Northern Leopard Frog

4. What is one way that you sort these animals into different groups: frog, fish, turtle, snail, butterfly, owl, bat

5. What does extinct mean?

- a. The animal lived a long time ago
- b. The animal died
- c. The entire species is dead
- d. The animal is in trouble

6. What does it mean to be a species at risk?

- a. The species is extinct
- b. The animal can't reproduce (have babies)
- c. The animal is not in trouble
- d. The species is in trouble and may soon become extinct

7. What are three things that are harming Alberta's animals and putting them at risk for extinction?

8. What are three things that YOU can do to help Alberta's species at risk?

Thank you for being a champion of Alberta's species at risk!
